

# ACCELERATE YOUR JOURNEY TO OCI

Transform your business into a cloud-connected enterprise

The Infosys solution for Oracle Cloud Infrastructure (OCI) is part of [Infosys Cobalt](#), a set of services, solutions, and platforms designed to expedite your cloud migration journey.

# 1

## Reimagine your business as a cloud-connected enterprise.

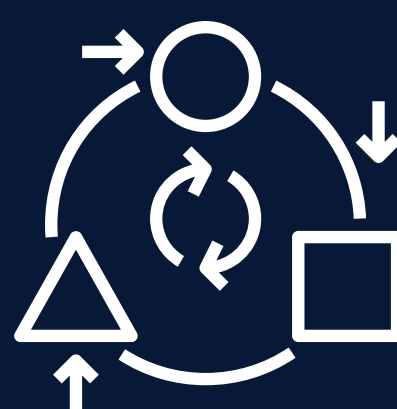

- > Apply cloud-based technologies such as artificial intelligence (AI) and machine learning (ML) to ingest and act upon data in an ongoing cycle of continuous improvement.
- > Gain instantaneous, data-driven insights that power intuitive decision-making to bring greater value to your business.

# 2

## Drive business agility and sustainability.

- > Democratize your innovation and decision-making capabilities to increase your organization's resilience and accelerate outcomes.
- > Gain end-to-end support for enterprise transformation, with a special focus on change management.

# 3

## Transform for the future.

- > Take advantage of unique, fit-for-purpose solutions that meet your specific business needs today and align with your roadmap for the future.
- > Gain greater return on your investments through innovative business models or more flexibility in how you procure cloud services—or both.

Infosys leveraged OCI to help one of the largest US-based banks:

boost operational performance from

reduce total cost of ownership by

**30% to 80%**

**nearly 30%<sup>1</sup>**

## Are you ready to accelerate your cloud transformation?

We can help transform your business into a resilient, cloud-connected enterprise on OCI quickly, efficiently, and cost-effectively.
